PROFILE

I am a Front End Developer with 3 years of experience specializing in building scalable, dynamic, and user-friendly web applications. My expertise includes:

- Developing applications using modern JavaScript frameworks (Vue.js).
- Ensuring seamless integration with back-end services through APIs and real-time communication technologies.
- Delivering pixel-perfect designs that align with client requirements and design specifications.
- Using agile methodologies like Scrum to manage and deliver projects effectively.

EMPLOYMENT HISTORY

Front End Developer at UniqoMall, Khmel'nyts'kyi

October 2023 — December 2024

- **Landing page development:** Designed and developed engaging and responsive landing pages to meet client goals and improve conversion rates.
- **CRM integration:** Integrated websites with CRM systems to streamline data management and enhance customer relationship workflows.
- **Telegram bot integration:** Connected Telegram bots to websites, enabling automated communication and enhancing user engagement.
- **UI/UX improvement:** Improved website interfaces to provide a better user experience, optimizing functionality and ease of use.
- **Hosting system management:** Worked with hosting systems to deploy and maintain websites, ensuring smooth operation and fast loading times.

Front End Developer at IsetSoft, Lviv

July 2020 — April 2023

- **Working with various technologies** such as VueJs, JavaScript (ES6+), HTML5, CSS3, and Laravel.
- **Dashboard development:** Designed and implemented an intuitive monitoring panel for cryptocurrency prices, allowing users to track and compare data from various exchanges seamlessly.
- **E-commerce interface development:** Developed a fully functional and responsive online store interface based on provided design mockups, ensuring pixel-perfect implementation.
- Creating complex websites for clients, tailored to their specific needs, with a high level of functionality and integration with various systems.
- Worked with project management tools such as Jira managing and tracking project progress.

EDUCATION

Bachelor of Software Engineering, NUBIP, Kyiv

2019 — 2023
